Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Regarding claims 1-10, the allowability in combination with the claimed features is because nowhere in the prior art is there a capacitor assembly having a first electrical connector extends from the first lead of the first capacitor to the second casing to thereby electrically connect the first and second capacitors in series. Regarding claims 11-20, the allowability in combination with the claimed features is because nowhere in the prior art is there a method of providing a first and second capacitor electrically connected to each other in series having the steps of securing a first end of an electrical connector to the first lead of the first capacitor and a second end of the electrical connector to the second casing.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Citation of Pertinent Prior Art

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
